

Design valves WV125

-Stylish & Elegant-

Features Whisper valve WV125

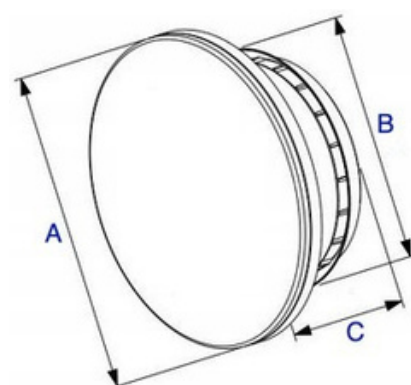

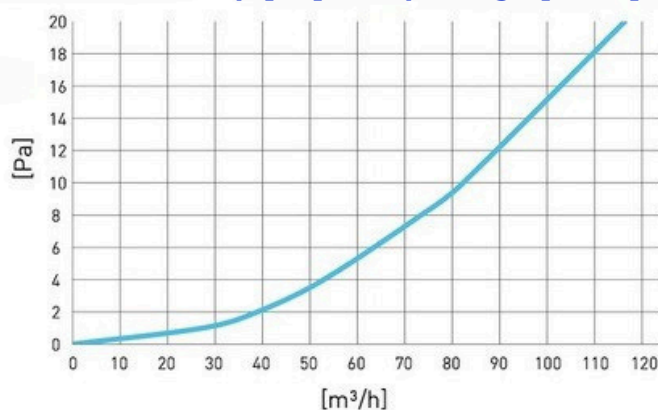

- Design valve for air supply and air exhaust
- Sealing rubber for airtight connection in the pipe
- Infinitely adjustable by turning the front cone
- Low noise levels
- Little resistance, so little pressure drop & high passage
- Diameter: Ø125mm
- Air Blocker pre-assembled
- Material: Plastic (ABS)
- Colour: WHITE RAL9016 and Black (matt)

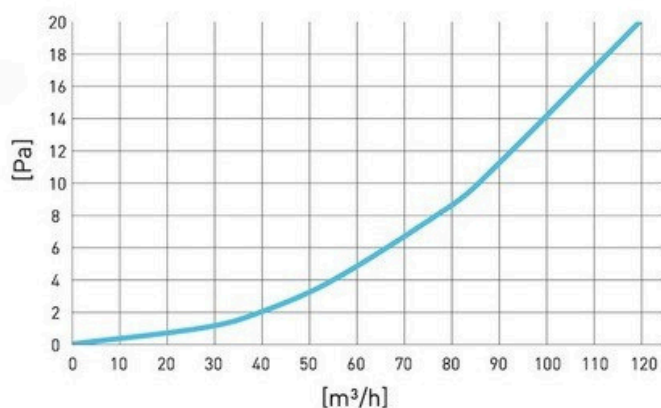

Including **Air-Blocker** with which you can seal one side, this is recommended if you blow close to a wall for example. The Air-Blocker is mounted as standard and can easily be clicked out.

Pressure drop [Pa] / Air passage [m³/h]

A = 173mm B = 125mm C = 54mm

Plastic with **NANOSILVER**
(eliminates 99% of bacteria)
